Graham Hancock

From Wikipedia, the free encyclopedia

Graham Bruce Hancock (born 2 August 1950) is a British writer and journalist. He promotes pseudoscientific theories^{[1][2]} involving ancient civilizations, Earth changes, stone monuments or megaliths, altered states of consciousness, ancient myths, and astronomical or astrological data from the past.

Hancock's works propose a connection with a 'mother culture' from which he believes other ancient civilizations sprang.^[3] An example of pseudohistory^[4] and pseudoarchaeology, his work has neither been peer-reviewed nor published in academic journals.^{[5][6]}
